This ruling also amends the remaining procedural schedule of this proceeding.

**1. Background**

The California Public Utilities Commission (Commission) is considering the appropriate methodology for calculating the unrealized volumetric sales and

unrealized revenues resulting from PG&E, SCE, and SDG&E's Public Safety Power Shutoffs (PSPS) which occurred during the 2019 Record Year, and related matters, in consolidated Applications (A.) 20-02-009, A.20-04-002, and A.20-06-001.<sup>1</sup> In accordance with the procedural schedule set out in the Amended Scoping Memo, the Commission's Energy Division hosted a workshop on the investor-owned utilities' (IOU) proposed PSPS methodology on October 26, 2021. The IOUs served joint testimony on Phase II issues on November 5, 2021. The Utility Reform Network (TURN) and California Choice Energy Authority, Clean Power Alliance of Southern California, East Bay Community Energy, Marin Clean Energy, Peninsula Clean Energy Authority, Pioneer Community Energy, San Jose Clean Energy, Silicon Valley Clean Energy Authority, and Somoma Clean Power Authority (jointly, the "CCA Parties") served intervenor testimony on January 18, 2022. The IOUs served joint rebuttal testimony on February 15, 2022. On February 25, 2022, the parties filed a joint case management statement indicating that evidentiary hearing was not needed and proposing a schedule for the remainder of this proceeding.

## **2. Additional Information Requested from PG&E, SCE and SDG&E**

Upon review of the testimony served by the parties, the Commission finds that additional information is required to consider the issues in this proceeding, including the following:

2. SCE and SDG&E must serve testimony wherein they calculate their respective unrealized wholesale generation revenue for 2019 PSPS events in accordance with the methodology used by PG&E in section III.B.2 of the Joint Utility Rebuttal Testimony served on February 15, 2022.
